## PROFILE

IT Engineer with experience in software development, IT infrastructure, and network administration. Skilled in developing enterprise web applications, managing Linux servers, configuring MikroTik networks, troubleshooting IT systems, and supporting day-to-day business operations. Experienced in deploying applications, maintaining IT infrastructure, and ensuring system availability. Eager to contribute technical expertise in enterprise and industrial environments while continuously expanding knowledge in networking and virtualization.

## WORK EXPERIENCE

### Front-End Web Developer Intern, PT. Pilihanmu Indonesia Jaya (September 2024 – December 2024)

- Collaborated with the Product Manager (PM) and UI/UX team to enhance project development.
- Refactored code to improve maintainability, performance, and scalability.
- Performed unit testing to ensure code reliability and stability.
- Integrated the client-side application with Firebase to build a dynamic CMS for admin management.
- Built user interfaces (UI) based on Figma designs with high precision.
- Optimized code for better performance, efficiency, and scalability.

### IT Staff & IT Programmer, PT. Sumber Setia Budi (Juli 2025 – Sekarang)

- Troubleshoot and repair laptop hardware and software issues to ensure operational efficiency.
- Perform operating system installations including Windows and Linux distributions.
- Develop and maintain procurement request application and fuel request application to streamline company operations.
- Manage and maintain application servers to ensure system reliability and uptime.
- Create incident report application for HSE (Health, Safety, and Environment) department to improve workplace safety monitoring.
- Manage web server and file server using TrueNAS to ensure reliable data storage and service availability.
- Configure and manage Mikrotik routers for basic network management and internet access control.

### Freelance Web & Mobile Developer, Self-Employed (2025 – Present)

- Developed and delivered multiple client web projects including school profile websites, student news portals, TV cable management systems, and institutional platforms.
- Built full-stack web applications using Next.js, TypeScript, Prisma, and MySQL/PostgreSQL.
- Developed cross-platform mobile applications using React Native/Expo.
- Managed end-to-end development from requirements gathering to deployment.

## PROJECT EXPERIENCE

- **Homeschooling Kak Seto:** Developed a profile website for Homeschooling Kak Seto, an A-accredited homeschooling institution, featuring program information, branch locations, alumni showcases, and online registration for prospective students.
- **E-Voting System Based on Blockchain:** Developing a secure and transparent blockchain-based e-voting system using Solidity smart contracts. The system ensures anonymity and integrity by implementing cryptographic techniques and NFT-based voter authentication. It is designed to be tamper-proof, allowing only whitelisted voters to participate while maintaining transparency in election results.
- **LPMLT:** Developed a student news portal featuring campus information, organizational updates, and educational news, designed to deliver fast and accurate content for Indonesian university students.
- **Procurement App:** Developed a procurement management system featuring purchase request management, fuel (BBM) request, cash journal, and multi-level approval workflows.
- **MartabakTa:** Developing a food ordering application supporting both walk-in and online ordering, featuring customer ordering, admin/cashier management, owner dashboard, and payment integration with Midtrans.
- **Enterprise File Server Deployment:** Designed, deployed, and administered a centralized TrueNAS file server for Workshop, HSE, and Warehouse departments, configuring RAID storage, SMB/CIFS services, shared folders, user permissions, scheduled backups, and storage monitoring to provide secure, reliable, and centralized file management.
- **Enterprise Network Infrastructure Deployment:** Designed, configured, and maintained a MikroTik

RouterOS-based network infrastructure for three operational departments (Workshop, HSE, and Warehouse), implementing VLAN segmentation, DHCP, IP addressing, NAT, basic firewall rules, and network troubleshooting to ensure secure and reliable network connectivity.

---

## TRAINING AND CERTIFICATE

- Cloud Practitioner Essentials: Learn AWS Cloud Basics - IDCAMP 2023, **Dicoding Indonesia**, Credential ID: [MRZM8K8J0ZYQ](#) (February 26, 2023)
- Learn to Make Back-End Applications for Beginners - IDCAMP 2023, **Dicoding Indonesia**, Credential ID: [81P28O2N8POY](#) (February 27, 2023)
- Learn JavaScript Programming Basics - IDCAMP 2022, **Dicoding Indonesia**, Credential ID: [07Z6G50Q2XQR](#) (October 23, 2022)
- Fullstack Web Development Wave 5, **Binar Academy**, Credential ID: [FSW2308KM5043](#) (2023)
- MSIB Batch 7 - Front-End Web Developer Internship, **PT. Pilihanmu Indonesia Jaya**, Credential ID: [10227416](#) (September 6 – December 31, 2024)

---

## EXPERTISE

### TECHNICAL SKILL

- **Programming Languages** : Javascript, Typescript, Solidity
- **Backend** : Node.js, Express.js, JWT Authentication, REST API
- **Frontend** : TailwindCSS, Bootstrap, React.js, Next.js, Zustand
- **Blockchain** : Smart Contract (Solidity)
- **Database** : MySQL, PostgreSQL, MongoDB, Firebase
- **Version Control & DevOps** : Git, GitHub,
- **Mobile** : React Native / Expo
- **Server & Infrastructure** : Linux, Docker, Nginx, Proxmox VE, TrueNAS, File Server Management
- **Networking** : MikroTik RouterOS, TCP/IP, DHCP, DNS, NAT, VLAN, Firewall (Basic), Network Troubleshooting

### SOFT SKILL

- Working with Teams and Individuals
- Time Management and Responsibility
- Adaptable and Communicative
- Detailed, Meticulous, and Disciplined
- Creative, Accountability, and Patience.

### LANGUAGE SKILL

- Indonesia
- English

---

## EDUCATION

### S1 COMPUTER SCIENCE / GPA: 3.80

2021 – Present / Universitas Sembilanbelas November Kolaka / Indonesia

#### Relevant courses :

- Web Development
- Data Structures and Algorithms
- Object-Oriented Programming
- Database Systems
- Software Engineering

### SENIOR HIGH SCHOOL, MAJORING IN SCIENCE

2018 – 2020 / SMA Negeri 2 Cilacap / Indonesia

---

## NON-FORMAL EDUCATION

- Fullstack Web Development, BINAR ACADEMY BOOTCAMP (2023 -2024)
-

# ORGANIZATIONAL EXPERIENCE

**HEAD OF THE DEPARTMENT OF INTERESTS AND TALENTS / HIMPUNAN MAHASISWA PRODI ILMU  
KOMPUTER USN KOLAKA (HMPS ILKOM)**

2022 – Present

- Lead and coordinate activities within the student organization related to the programming field of interest and talent.
- Organize and conduct weekly meetings to educate and introduce programming languages to other students and the public.
- Facilitate workshops and skill development sessions to enhance the programming abilities of participants.
- Foster a sense of community within the programming field by organizing events, coding competitions, or collaborative projects.
- Collaborate with faculty, industry professionals, or relevant stakeholders to enhance the programming curriculum.
