PROFILE

I am a Full Stack Developer with a degree in Computer Science. With hands-on experience in web development and IT programming, I am passionate about building scalable and efficient applications using modern technologies. Over the past few years, I have continuously expanded my technical expertise through self-learning and practical projects. I am a collaborative team player with strong problem-solving skills, high adaptability, integrity, and effective communication abilities. I am dedicated to delivering high-quality solutions and contributing to company success.

WORK EXPERIENCE

Front-End Web Developer Intern, PT. Pilihanmu Indonesia Jaya **(September 2024 – December 2024)**

- Collaborated with the Product Manager (PM) and UI/UX team to enhance project development.
- Refactored code to improve maintainability, performance, and scalability.
- Performed unit testing to ensure code reliability and stability.
- Integrated the client-side application with Firebase to build a dynamic CMS for admin management.
- Built user interfaces (UI) based on Figma designs with high precision.
- **Optimized code for better performance, efficiency, and scalability.**

IT Staff & IT Programmer, PT. Sumber Setia Budi (Juli 2025 – Sekarang)

- Troubleshoot and repair laptop hardware and software issues to ensure operational efficiency.
- Perform operating system installations including Windows and Linux distributions.
- Develop and maintain procurement request application and fuel request application to streamline company operations.
- Manage and maintain application servers to ensure system reliability and uptime.
- Create incident report application for HSE (Health, Safety, and Environment) department to improve workplace safety monitoring.

PROJECT EXPERIENCE

- Website Profile: Developed a profile website with user authentication for admin, including features for creating, reading, updating, and deleting profiles in the admin dashboard.
- Whatsapp Clone: Redesigned WhatsApp Clone focusing on real-time message capabilities.
- Preducation Admin Dashboard: Developed an admin dashboard and a landing page for Preducation, an online video learning course platform, aimed at efficient course management.
- Preducation API: Designed RESTful endpoints for core functionalities of Preducation, including user authentication, course creation, enrollment, and progress tracking.
- Instagram Clone: Developed an Instagram clone for sharing images and videos, handling backend and frontend development.
- Tiktok Clone: Built a Tiktok clone that allows users to share videos and other multimedia content, covering backend and frontend development.
- Tenun Buton: Currently working on an e-commerce project for selling Tenun Buton fabrics, integrated with a payment gateway, focusing on both frontend and backend development.
- Blockchain Transaction Bots**:** Occasionally develop bots for automating transactions on the blockchain, handling various blockchain networks and smart contract interactions.
- School Information System**:** Develop a school information system project, integrating various school management functions.
- E-Voting System Based on Blockchain: Developing a secure and transparent blockchain-based e-voting system using Solidity smart contracts. The system ensures anonymity and integrity by implementing cryptographic techniques and NFT-based voter authentication. It is designed to be tamper-proof, allowing only whitelisted voters to participate while maintaining transparency in election results.
- School Information System**:** Develop a school information system project, integrating various school management functions.

TRAINING AND CERTIFICATE

- Cloud Practitioner Essentials: Learn AWS Cloud Basics - IDCAMP 2023, **Dicoding Indonesia**, **Credential ID: MRZM8K8J0ZYQ (February 26, 2023)**
- Learn to Make Back-End Applications for Beginners - IDCAMP 2023, **Dicoding Indonesia, Credential ID: 81P28O2N8POY (February 27, 2023)**
- Learn JavaScript Programming Basics - IDCAMP 2022, **Dicoding Indonesia, Credential ID: 07Z6G50Q2XQR (October 23, 2022)**
- Fullstack Web Development Wave 5, **Binar Academy, Credential ID: FSW2308KM5043 (2023)**
- MSIB Batch 7 - Front-End Web Developer Internship, **PT. Pilihanmu Indonesia Jaya, Credential ID: 10227416 (September 6 – December 31, 2024)**

EXPERTISE

HARD SKILL

- **Programming Languages** : Javascript, Typescript, Solidity
- **Backend** : Node.js, Express.js, JWT, Mongoose, Sequelize, Prisma, Jest Integration testing
- **Frontend** : HTML5, CSS3, Javascript, TailwindCSS, Bootstrap, React.js, Next.js, NextAuth, Zustand, Unit Testing
- **Blockchain** : Smartcontract, NFT
- **DBMS** : MySQL, PostgreSQL, MongoDB, Firebase
- **Others** : Git, GitHub,

SOFT SKILL

- Working with Teams and Individuals
- Time Management and Responsibility
- Adaptable and Communicative
- Detailed, Meticulous, and Disciplined
- Creative, Accountability, and Patience.

LANGUAGE SKILL

- Indonesia
- English

EDUCATION

S1 COMPUTER SCIENCE / GPA: 3.80

2021 – Present / Universitas Sembilanbelas November Kolaka / Indonesia

Relevant courses :

- Web Development
- Data Structures and Algorithms
- Object-Oriented Programming
- Database Systems
- Software Engineering

SENIOR HIGH SCHOOL, MAJORING IN SCIENCE

2018 – 2020 / SMA Negeri 2 Cilacap / Indonesia

NON-FORMAL EDUCATION

- Fullstack Web Development, BINAR ACADEMY BOOTCAMP **(2023 -2024)**

ORGANIZATIONAL EXPERIENCE

HEAD OF THE DEPARTMENT OF INTERESTS AND TALENTS / HIMPUNAN MAHASISWA PRODI ILMU KOMPUTER USN KOLAKA (HMPS ILKOM)

2022 – Present

- Lead and coordinate activities within the student organization related to the programming field of interest and talent.
- Organize and conduct weekly meetings to educate and introduce programming languages to other students and the public.
- Facilitate workshops and skill development sessions to enhance the programming abilities of participants.
- Foster a sense of community within the programming field by organizing events, coding competitions, or collaborative projects.
- Collaborate with faculty, industry professionals, or relevant stakeholders to enhance the programming curriculum.
